

Call for Challenge Proposals – ASRU 2023 –

Submissions of challenges proposals are encouraged for ASRU 2023, covering the areas of interest related to the main conference topics with the objective of establishing new performance evaluation platforms. Each challenge proposal should contain the following information:

- Title of the challenge and an acronym (if exists)
- Names and affiliations of the organizers including contact information and a brief biography
- List of the scientific committee members
- Challenge website (if already known)
- Estimated number of participants
- A short description and objectives of the challenge
- A description of the submission process (e.g. deadlines, target acceptance rate)

Proposals will be evaluated by the organizing committee for relevance and significance. Challenge organizers will independently operate the reviewer assignment and the final decision process. The accepted challenge papers will be presented in a separate session included as a part of the main technical program.

Important Dates

- Proposal submission deadline: **April 10, 2023**
- Notification of acceptance: **April 14, 2023**

If you have any questions regarding the challenge proposals, please contact the ASRU 2023 Challenge and Demonstration Chairs.

Sincerely,

Kyu Jeong, Han (Amazon, USA), kjhan@ieee.org

Amir Hussain (Edinburgh Napier University, UK), A.Hussain@napier.ac.uk

Naveen Kumar (Disney Research, USA), Naveen.Kumar@disney.com

Richard Tzong-Han, Tsai (NCU, Taiwan), thtsai@g.ncu.edu.tw

Chia-Ching Wang (NCU, Taiwan), jcw@csie.ncu.edu.tw
